<b>Agency</b>	<b>RIN/ OMB Control Number</b>	<b>Title of Rule</b>	<b>Brief Description</b>	<b>Actual or Target Completi on Date</b>	<b>Anticipated savings in costs and/or information collection burdens, together with any anticipated changes in benefits</b>	<b>Progress updates and anticipated accomplishments</b>
NOAA	0648-BC03	Proposed Rule for Regulatory Amendment 12 to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region	This rule if finalized would modify recreational accountability measures for golden tilefish.	06/20/2012	This rule if finalized would reduce the burden on stakeholders by simplifying accountability measures for recreational fishermen, and reducing the risk of implementing overly conservative accountability measures when they are not needed, thereby improving access to quota for recreational fishermen.	Published - 77 FR 42688
NOAA	0648-BB44	Final Rule for Regulatory Amendment 11 to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region	This final rule removed a harvest prohibition for six deepwater species in depths exceeding 240 feet.	05/10/12	The goal of the final rule is to reduce the socio-economic impacts expected from the deepwater closure enacted by Amendment 17B, while maintaining the biological protection to speckled hind and Warsaw grouper in the South Atlantic.	Published - 77 FR 27374
NOAA	0648-BB56	Final Rule to Implement Amendment 18A to the Fishery Management Plan for the Snapper-Grouper	This final rule established an endorsement program for black sea bass pot fishermen and modified accountability measures for the recreational sector.	06/01/12	The final rule is expected to reduce the burden on stakeholders. Through the establishment of black sea bass pot endorsement program it is expected that the fishing season will last longer for all participants regardless of gear	Published - 77 FR 32408

November 15, 2012  
 Department of Commerce Progress Report for EO 13563

		Fishery of the South Atlantic Region			fished thereby leading the overall industry profits to increase or at least remain stable. Further, it is expected that market prices and quality of the product will increase with the establishment of an endorsement program. By simplifying recreational accountability measures it will allow for better tracking of landings with respect to the catch limit and will be easier for the public to understand.	
NOAA	0648-XC088	Final Temporary Rule Extending the Recreational Red Snapper Fishing Season in Federal Waters of the Gulf of Mexico	This temporary rule extended the recreational red snapper fishing season in federal waters of the Gulf of Mexico.	07/05/12	This temporary rule extended the recreational red snapper fishing season by seven days, thereby increasing opportunities to fish and relieving a restriction on the recreational sector.	Published 77 FR 39647
NOAA	0648-BB72	Proposed Rule to Implement Amendment 34 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico	This rule if finalized would remove income requirements for federal reef fish permits and relax crew size restrictions.	07/18/12	The proposed elimination of an income requirement for the Gulf commercial reef fish permit is expected to provide the opportunity for fishermen to increase income from non-fishing occupations without jeopardizing their ability to renew their commercial reef fish permit. This would also eliminate the pressure to continue to fish to maintain fishing income to satisfy a permit requirement when personal, economic, or other factors may suggest fishing should not occur. This rule would also reduce the reporting and recordkeeping burdens currently imposed on applicants.	Published 77 FR 42251

November 15, 2012  
 Department of Commerce Progress Report for EO 13563

					<p>Additionally the proposed increase in the maximum crew size from three to four persons for dual-permitted vessels would allow increased flexibility for affected vessels to carry the number of crew best suited to the needs or conditions of the trip. Although the overall effects of these changes are not quantifiable with available data, the proposed action would be expected to increase the economic benefits to small entities.</p>	
NOAA	0648-BB45	Final Rule; Western Pacific Pelagic Fisheries; Modification of American Samoa Large Vessel Prohibited Area	This final rule modified certain boundaries of a prohibited area around Tutuila, the Manua Islands, and Rose Atoll in American Samoa to align with the boundaries of the Rose Atoll Marine National Monument. This rule simplified enforcement and administration of the management areas.	06/11/12	The action expanded the area in which large vessels are allowed to fish by 326 square nautical miles, an increase of 0.3 percent in the area where large vessels are allowed to fish in the Exclusive Economic Zone around American Samoa. This provides an additional available fishing area for large vessels.	Published 77 FR 34260
NOAA	0648-BB49	Final Rule to Amend the Regulations that Implement the National Saltwater Angler Registry and State Exemption Program	Among other things, this final rule (1) eliminated duplicative permitting and registration requirements for holders of Main Hawaiian Islands Non-commercial Bottomfish Permits; and (2) allowed states that exempt minors under the age of 17 from the state license or registration requirements.	07/18/12	One provision of the rule exempts persons who hold Main Hawaiian Islands Non-commercial Bottomfish Permits issued by NOAA from the requirement to also register with NOAA under the National Saltwater Angler Registry and pay the required \$15.00 registration fee. Elimination of this duplicative registration requirement affects approximately 50 people.	Published 77 FR 42189

Agency or Sub-agency	RIN/OMB Control Number	Title of Rule	Actual/Target Completion Date	Anticipated Savings in costs and/or information collection burdens and anticipated changes in benefits	Progress updates and anticipated accomplishments
BIS	0694-AF03	Export Control Reform Initiative: Strategic Trade Authorization License Exception	06/16/2011 76 FR 35276	While reduction in burden hours for license applications (0694-0088) is somewhat offset by increased safeguards requirements for assurances against unauthorized reexports (0694-0137), giving exporters the option of an exception reduces uncertainty and turnaround time on the transaction; benefits include allowing the government to redirect resources from low-risk transactions to more complex national security and foreign policy concerns.	In order to determine the impact of the regulation on license applications and shipments, BIS's Office of Technology Evaluation (OTE) has prepared benchmark analysis of the use of Strategic Trade Authorization (STA) transactions, comparing pre-STA license applications and shipments with post-STA data. Based on the analysis, OTE found that from July 2011 to June 2012, 69 exporters have conducted 543 shipments under STA worth \$29.8 million. In addition, approved license applications for STA-eligible items decreased 11% from 3,110 to 2,761 between 2010 and 2011. OTE continues to track STA exports and license applications.
BIS	0694-AF17	Proposed Revision to the Export Administration Regulations: Control of Items the President Determines No Longer Warrant Control Under the United States Munitions List	07/15/2011 76 FR 41958	Increases in burden hours under 0694-0088 and 0694-0137 for less militarily significant items moved from State to Commerce control is expected to be more than offset by reductions in State collections for license applications and amendments (1405-0003, 1405-0023, and 1405-0092), agreements (1405-0093), and registration (1405-0002). State registration and licensing fees are not required for Commerce items. Benefits include reduced burden on exporters due to more flexible Commerce licensing regime; eased interoperability with close allies; enhanced defense industrial base; and greater clarity with respect to jurisdiction.	Public comment period closed on September 13, 2011. Comments generally supported the concept and offered numerous specific suggestions currently under review.

Benefits include reduced burden on exporters due to more flexible Commerce licensing regime; eased interoperability with close allies; enhanced defense industrial base; and greater clarity with respect to jurisdiction.	
BIS	0694-AF66	“Specially Designed” Definition	06/19/2012 77 FR 36409	This proposed rule does not affect the jurisdiction of any items. BIS believes it will facilitate enhanced public understanding of a key term used extensively on the Commerce Control List. The term would also be used in controls that would apply to items transitioned from State to Commerce.	Public comment period closed on August 3, 2012. This rule re-proposed a definition originally proposed July 15, 2011, taking into account public comments received in response to that proposal. Comments generally supported the revisions and offered additional specific suggestions currently under review.
BIS	0694-AF68	Feasibility of Enumerating “Specially Designed” Components	06/19/2012 77 FR 36419	This advance notice of proposed rulemaking solicits public comments with the intention of making the Commerce Control List more objective, which would aid compliance.	Public comment period will close on September 17, 2012.
BIS	0694-AF65	Proposed Revisions to the Export Administration Regulations: Implementation of Export Control Reform; Revisions to License Exceptions After Retrospective Regulatory Review	06/21/2012 77 FR 37524	In addition to proposing measures to ease the transition process for items moving from State to Commerce jurisdiction, this proposed rule, as a result of retrospective regulatory review, would streamline certain license exceptions to eliminate complex or outmoded provisions.	Public comment period closed on August 6, 2012. Comments generally supported the concepts proposed and offered numerous specific suggestions currently under review.
BIS	0694-AF47	Revisions to the Export	Projected publication date:	Increases in burden hours under 0694-0088 and 0694-0137 for firearms and related	Proposed rule pending completion of OMB review pursuant to Executive Order 12866. See
